

## Girovend Myriad Reports

Myriad Reports is the core PC-based reporting software module of the MYRIAD Cashless Payment Solution.

Myriad Reports is the core PC-based reporting software module of the Myriad Cashless Payment Solution.

Myriad Reports allows both administrators and users to instantly produce detailed browser based reports on all sales. Various levels of reports are available, allowing specific, time period and custom group analysis to be produced quickly and easily. Bespoke reports can also be precisely configured by Dualtron, specific to customer requirements.

Myriad Reports can be used to produce reports by sales, card holder type, category, product group purchases, tariff types and many more groupings. With Myriad Reports, users are able to simply select the report type from a simple menu, then select a range of detailed parameters to produce a browser based report that can be saved for use at regular intervals.

**Sales Transaction Count**

**A28 Customer Sales Summary**

**Sales by EPOS Operator**  
Audit Level (Daily), Operator (\*), Order By (Alphabetically)

Operator	Transaction	Customers	Qty	Total	Subsidy	Deal	Site	Tag
